Suggested way to play:

- Play the video – instructions will be given at the beginning.
- Pause the video at any time to help children work out the emotion and/or to discuss when we might feel this way
- There are 5 games across three levels of difficulty
- Level 1 (Easy) has the name of each emotion on it. Level 2 (Intermediate) has the name of each emotion but after a short delay. Level 3 (hard) does not have the name of the emotion on it. Children have to 'guess' the emotion.
- Keep playing the video until someone call's 'BINGO' (this should happen before each of the 10 emotions are shown)
